

FIORANTINA
STONE

About us

Fiorantina is a multinational company of Spanish origin and a world leader in Natural Stone production and supply. Established in 2004 and run by an experienced team, who share a passion for natural stone and highly specialised knowledge of the sector.

Fiorantina has grown and strongly expanded, becoming a global model in the industry, offering the most diverse range of natural stones with over 150 varieties to choose from, including a selection of marbles, quartzites, onyx, granites, travertines, limestones and sandstones.

High standards of production, competitive price and extensive customer care strategy helped us to gain reputation of one of the most reliable companies occupying a competitive position in national and international markets.

We are selecting materials based on their supreme quality and beauty, and can truly define them as an “art of nature”. Our quality management team checks each bundle - slab by slab to assure the perfect stone will be delivered to our clients in the most perfect condition.

Across the Globe, we aspire to excel in service - to our customers, associates and community. That's what leadership means for us.
